DEDICATION

In the 1936 edition of the ROLLAMO we have endeavored to portray our campus in words and pictures that you may some day hence refer to it for authentic information concerning your collegiate career.

378.778
MUM
v.30
1936
c.2

The 1936 Rollamo departs from the usual custom of dedicating the book entirely to the field of Engineering. As an Engineer's education should comprise all the branches of culture, his education can be said to be complete only when it embraces all the varied aspects of the entire campus.

Thus we dedicate this, the 1936 All-Campus Edition Rollamo.

FOREWORD

G-1-47

In Memoriam

CHARLES A. MITCHELL

On August 29, two days before leaving for his Senior Year at school, Charles Albert Mitchell, '36, died of burns suffered in an explosion at Wilmington, Ill. His sudden passing left behind a rich memory for all those who were privileged to know him and be his friend. Since he died at the age of 22, this meager tribute cannot contain a long list of professional accomplishments that would have accrued had his stay with us been prolonged. Above those honors though is a tribute to the likeable personality and keen mind that were his supreme gifts.

Mitchell was born at Wilmington, Ill., October 14, 1913, and first entered the School of Mines in the fall of 1931, majoring in Metallurgy. He was a member of Triangle Fraternity, Blue Key Honorary Fraternity, the A. I. M. M. E. and the R. O. T. C. Band.

His death was due to burns occasioned by an explosion in the materials testing laboratory of the Orenda Chemical Company, where he was employed for the summer vacation. The friends of Charles Mitchell will remember him as a true student, anxious to learn and apply, not only of the material things, but also of those vaster and finer associations that go with living this life in the fullest possible measure.

CHARLES HERMAN FULTON

Director, Missouri School of Mines and Metallurgy

E. M., D. Sc.

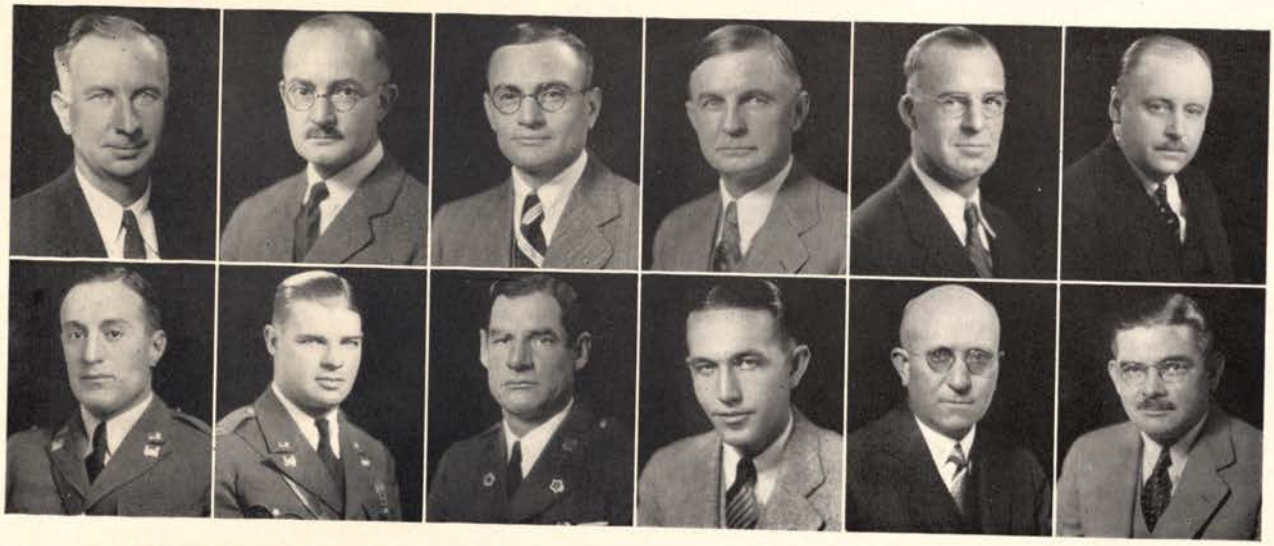
Theta Delta Chi, Sigma Xi, Tau Beta Pi, Phi Kappa Phi, Theta Tau

HENRY HORTON ARMSBY

Registrar

B. S. C. E.

Sigma Nu, Phi Kappa Phi



FLOYD HILL FRAME, *A. B., E. E.*
Professor of Electrical Engineering—Who's Who in Engineering.

I. HERRICK LOVETT, *S. B., E. E., M. S. E.*
Professor of Electrical Engineering.

GEORGE OTTIS RANES, *B. S., E. E.*
Associate Professor of Electrical Engineering.

LEON ELLIS GARRETT, *B. S.*
Professor of Mechanics.

FRANK EDWARD DENNIE, *B. S., C. E.*
Associate Professor of Mathematics.

SAMUEL H. LLOYD, JR., *A. B., M. S.*
Associate Professor of Psychology.

EMERSON C. ITCHNER, *C. E., Captain Corps of Engineers, U. S. A.*
Professor of Military Science and Tactics

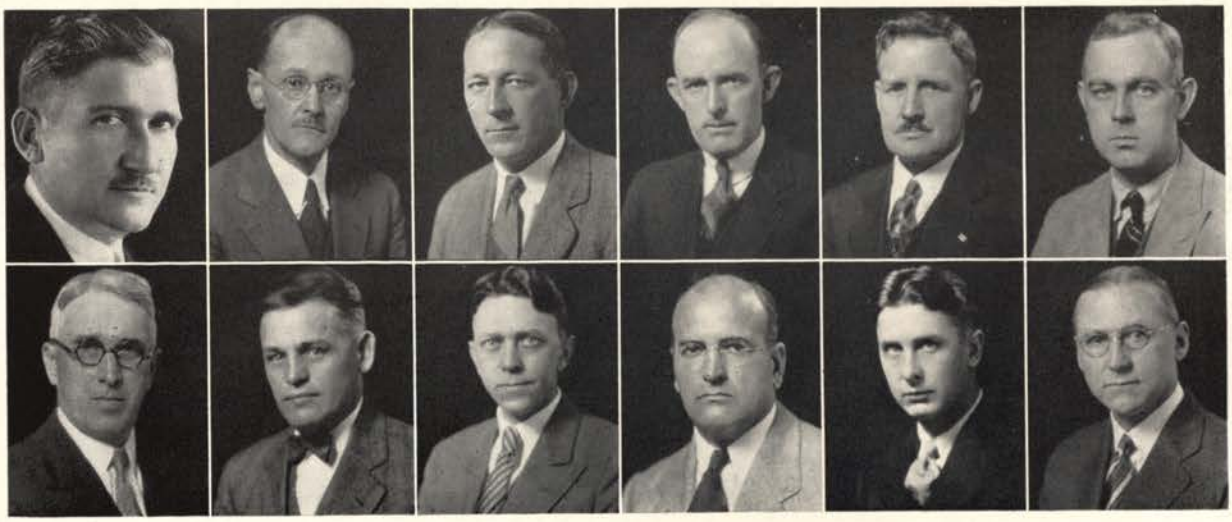
WALTER W. HODGE, *B. S., Captain Corps of Engineers, U. S. A.*
Associate Professor of Military Science and Tactics

WILLIAM B. BERTRAM, *LL. B., Sergeant, U. S. A.*
Instructor in Military Science and Tactics

REX ZADOK WILLIAMS, *B. S.*
Instructor in Mechanics

HERBERT RUSSELL HANLEY, *B. S., Met. E.*
Professor of Metallurgy

CHARLES J. MILLAR, *B. S., M. S.*
Associate Professor of Biology



CHARLES YANCEY CLAYTON, *B. S., Met. E.*
Professor of Metallurgy and Ore Dressing

EUGENE A. STEPHENSON, *B. S., Ph. D.*
Professor of Petroleum Production

ROLFE M. RANKIN, *A. B., A. M., B. S.*
Associate Professor of Mathematics

MAURICE D. ORTEN, *A. B., A. M.*
Professor of Economics

JAMES HENRY UNDERWOOD,
Assistant Professor of Shop

ELDRIDGE ALVAH GOODHUE, *A. B., B. S., M. S.*
Associate Professor of Mathematics

LEON ELMER WOODMAN, *A. B., A. M., Ph. D.*
Professor of Physics

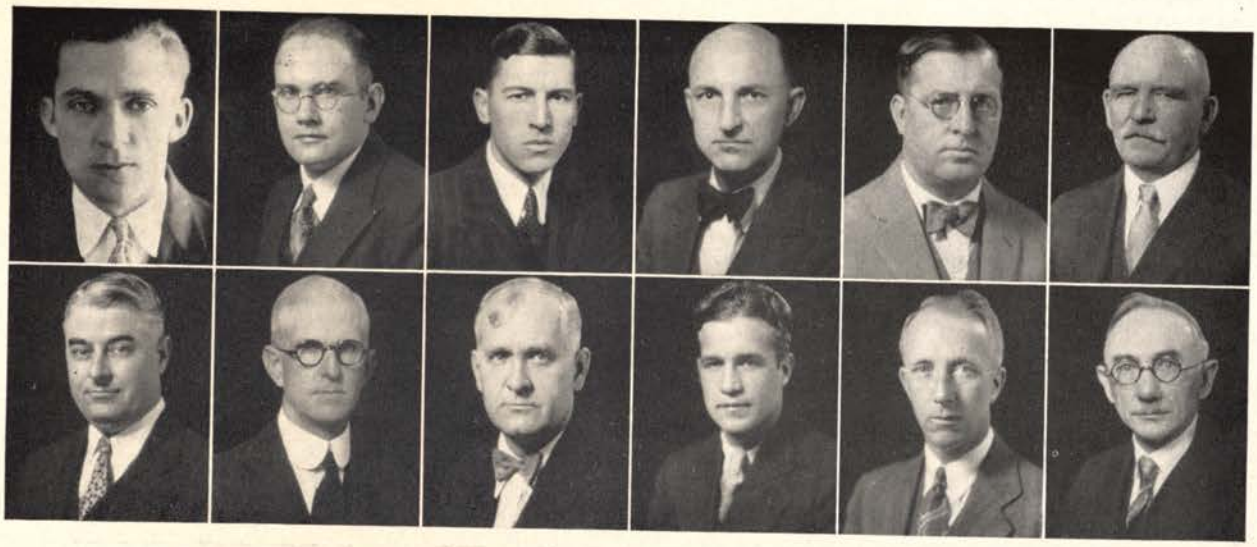
WALTER CHARLES ZEUCH, *B. S., C. E.*
Associate Professor of Engineering Drawing and Descriptive Geometry

CLARENCE JOHN MONROE, *B. S., Ph. D.*
Associate Professor of Physical Chemistry—"Men Among Science"

R. O. JACKSON, *B. S., M. E.*
Professor of Mechanical Engineering—Who's Who in Engineering

HAROLD GRANT, *A. B.*
Athletic Director and Head Coach

CLAIR VICTOR MANN, *B. S., C. E., Ph. D.*
Professor of Engineering Drawing and Descriptive Geometry



DAVID FRANCIS WALSH, *B. S., in Metallurgy, M. Sc.*
Associate Professor of Metallurgy

OLIVER RUDOLPH GRAWE, *A. B., M. S., Ph. D.*
Associate Professor of Mineralogy

REGAN HARRIS YOUNG, *B. S., M. E.*
Associate Professor of Engineering Drawing and Descriptive Geometry

MILES HERBERT CAGG, *A. B., M. A.*
Assistant Professor of English

VAN BUREN HINCH, *B. S., E. M.*
Professor of Mathematics

STERLING PRICE BRADLEY, *B. S.*
Assistant Professor of English

CLARENCE EDWARD BARDSLEY, *B. S., C. E., M. S., Sc. D., M. A.*
Professor of Hydraulic Engineering

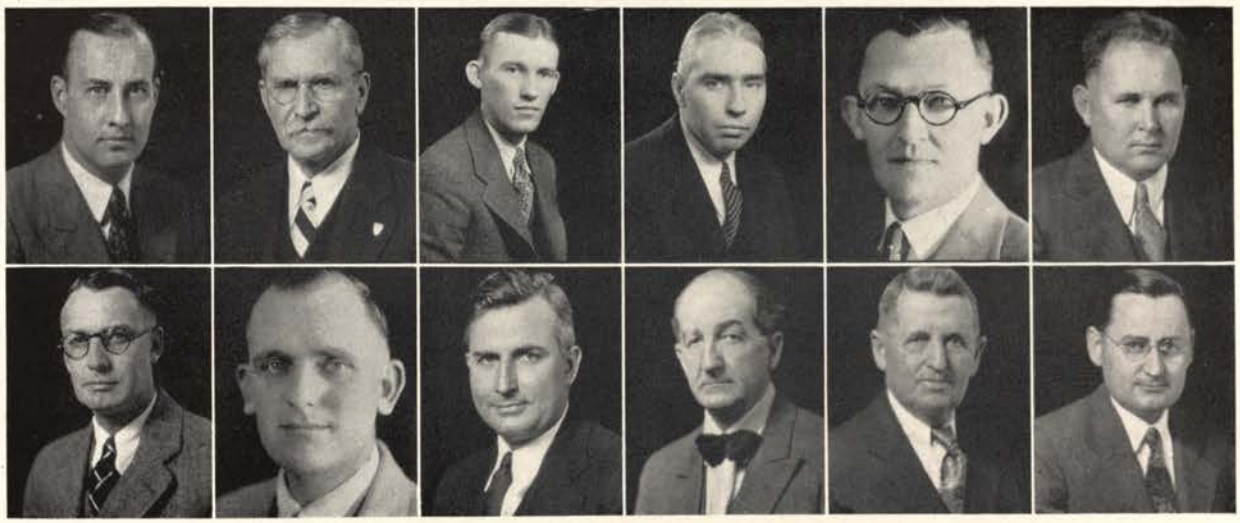
CARROL RALPH FORBES, *B. S., E. M.*
Professor of Mine Engineering

HOWARD LEROY DUNLAP, *B. S., A. M., Ph. D.*
Professor of Chemical Engineering—"Men Among Science"

JUNIOR BROWN, *A. B.*
Instructor of Physical Education, Assistant Coach, Director of Intramural Athletics

GARRET A. MUILENBURG, *A. B., M. S., E. M., Ph. D.*
Professor of Economic Geology

JOSEPH WAYNE BARLEY, *A. B., A. M., Ph. D.*
Professor of English



CHARLES MITCHENER DODD, *B. Cer. E.*
Professor of Ceramic Engineering

ELMO GOLIGHTLY HARRIS, *C. E.*
Professor of Civil Engineering

THOMAS C. DAY, *B. A., M. S., Ph. D.*
Instructor of Chemistry

NORMAN HINCHEY, *B. S., M. S., A. M., Ph. D.*
Instructor of Geology

OSCAR ADAM HENNING, *A. B., A. M.*
Professor of Modern Language

JOSEPH BEATY BUTLER, *B. S., C. E., M. S.*
Professor of Civil Engineering

ERNEST WILSON CARLTON, *B. S., M. S.*
Associate Professor of Civil Engineering

KARL KENNETH KERSHNER, *B. S., M. S.*
Professor of Chemical Engineering

WALTER THEODORE SCHRENK, *B. S., M. S., Ph. D.*
Professor of Chemisary—"Men Among Science"

EUGENE LEE JOHNSON, *Ph. B., LL. B., A. M.*
Professor of English

RYLAND FLETCHER RATLIFF, *A. B., A. M.*
Associate Professor of Physics

WILLIAM J. JENSON, *A. B., A. M.*
Associate Professor of Physics

ERNEST ETHRIDGE DECKER, *B. S.*
Instructor in Civil Engineering

JOHN M. WILLSON, *B. S., M. S.*
Instructor in Physics

A. VERN KILPATRICK, *B. S.*
Assistant Professor of Mechanical Engineering

CLARENCE DELMAR THOMAS, *B. S., A. M.*
Instructor in Physics

NADINE MATLOCK SEASE, *B. S., M. S.*
Instructor in English

PAUL HOWARD, *A. B., B. S. in Library Science*
Librarian and Associate Professor of Library Science

STUART LEE BAYSINGER, *M. D.*
Professor of Hygiene and Student Health Director

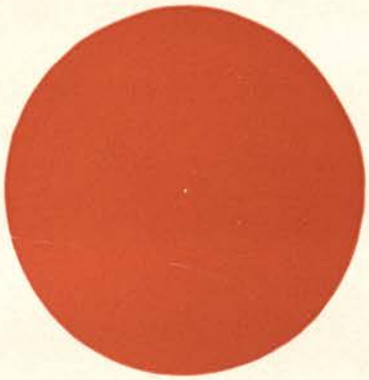
There are many contacts the student can make by becoming a member of the professional society of his own field of engineering. The meetings held by these societies are the place to exchange ideas of the profession. It also gives the student an opportunity to hear speakers who, quite often, are outstanding engineers. It would be worth while for each student to affiliate himself with the chapter of the professional society which represents the engineering field he expects to follow.

BOOK TWO ..... ATHLETICS

ATHLETICS



COACHES

HAROLD GRANT
Head Coach
Director of Athletics

Harold Grant, Director of Athletics, and head football and track coach for the Miners completed his eighth season at M. S. M. this year. Grant came to M. S. M. from The College of the City of Emporia, where he succeeded Gwyn Henry, his former coach.

JUNIOR BROWN
Assistant

"Brownie" also came from Emporia, where he received his training under Grant. During the year he is assistant football coach, golf instructor, and has charge of all intramural athletics. Brown is also completing his eighth year at M. S. M.

ELMER KIRCHOFF
Assistant

"Kirch" handles the freshmen footballers during the fall and is completing his second year as head basketball coach for the Miners. He was an all-state end and star basketball player during his playing days at M. S. M.

FOOTBALL

Fred A. Schwab Neil Plummer

"Plum," held down the fullback position for the Miners for four years. A hard blocker and a fearless tackler, his defensive play was always outstanding. "Freddie" played halfback for four years. Like Plummer, he was an excellent blocker and tackler. He also handled the place kicking assignments.

MINERS 6—McKENDREE 0

The Miners took the field against McKendree with the memory of last year's defeat in their minds, and vengeance was sweet as the Silver and Gold handed one of the best teams McKendree ever had a 6 to 0 defeat. The field was slippery and a fine mist fell throughout the game. This didn't stop the Miners though, for the running attack was good. The fact that not one aerial attempt was made shows the ease with which the Miners penetrated the McKendree line. Jim McGregor, fleet Miner halfback scored the lone counter for the Miners with a short plunge through the line after he had brought the ball within scoring distance on a brilliant 15-yard dash around right end. The try for placement went wild. The McKendree team found the Miner line almost impregnable, and time after time their star back, Wilson, was held for no gain, and was often tossed for a loss. The only way the Bearcats could make any progress was through their aerial attack, but the Miners broke up all their scoring chances.

ST. LOUIS 38—MINERS 0

The Billikens handed the Miners one of their worst defeats in years when they ran up a score of 38 to 0. After playing a good first quarter and a fair second quarter, the Miner team went completely to pieces, and the St. Louis backs went through the line and around the ends at will. The Miners made three scoring threats, the first one in the initial quarter when the Silver and Gold got within ten yards of the Blue and White goal line. However, the St. Louis team tightened up and a completed pass MacGregor to Murphy fell short of a first down by a few inches. Again in the second quarter the Miners were within striking distance but something went wrong and the ball was lost on downs. In the third quarter the Miners advanced to the 15-yard line on a series of passes, but the attack again failed within scoring distance. St. Louis scored in every quarter, the score at the half being 14 to 0. They ran over two touchdowns in both the third and fourth quarters.

FOOTBALL

MINERS 2—SPRINGFIELD 7

The Springfield Bears provided the first major upset of the year when they set the Miners back on their heals with a 7 to 2 defeat. The Springfield touchdown came in the first two minutes of play. After taking a Miner punt on the 50-yard line, Berry passed to Stephens, who crossed the goal line. The Bears made their try for the extra point. The Miner score came at the beginning of the second quarter, when Berry fumbled a bad pass from center. A wild scramble ensued for the slippery ball, and when it finally came to rest after two Miners had fumbled it, a Springfield back was covering the ball in the end zone, thus giving the Miners two points and their only score of the game. The second half was devoid of outstanding play by either team due to the slippery ball caused by heavy rain previous to the game. The Miners for the most part tried passes in the second half, but poor blocking and an inspired Springfield team stopped the Silver and Gold cold every time they got the ball.

MINERS 6—WARRENSBURG 20

Miner fumbles and a whirlwind passing attack by the Warrensburg Mules were combined to hand the Silver and Gold their third straight defeat of the season. It was a heartbreaking game for the Miners to lose for they were able to gain through the Mule line almost at will. However, every time the goal line was in sight someone would fumble and another scoring chance would go by. The only Miner score came with but one minute left to play when MacGregor grabbed a Warrensburg kickoff on his own 20-yard line and ran the entire length of the field for a touchdown. "Mac" was hard to hold that night. Besides making many shorter gains around end and through the line, he was away in the open on another Mule kickoff, only to slip and fall when trying to reverse his field to get around the Mule safety man. Pfiefer played a great game at end and was getting more than 50 yards on all of his kicks. The Teachers' passing attack, which completed six out of eight attempted, lead to all their scores.

MINERS 0—MARYVILLE 7

The Miners again went down to defeat to the tune of 7 to 0. The first half of the game was played on a soggy field and saw the Maryville Teachers score the lone counter of the game late in the second quarter. A drenching rain greeted the players at the start of the second half, and the game resolved itself into a swimming meet all through the third and fourth quarters. This half saw both teams go into a punting duel, as football was made practically impossible on account of precarious footing and a very slippery ball. The Miners made their only scoring threat of the game in the third quarter when MacGregor took a Maryville punt in mid-field and ran it back to the Maryville 12-yard line. The Miners then made it first down on the Teachers' 2-yard line with four successive line plays. The Miners then hit the line twice for no gain and on the third down lost five yards. On the fourth down MacGregor almost made it across the goal line on a dash around end but was brought down inches short of the chalk mark, ending the only Miner threat of the game, as both teams had to resort to punting on the first or second downs.

GREWIS BLISS FERNANDEZ VINCENT GLATTHAAR

FOOTBALL

MINERS 6—OKLAHOMA CITY U. 27

The Goldbugs of Oklahoma City were a bit too powerful for the Miners and handed them a 27 to 6 defeat in a very wide open game of football. The game was a thriller, with just about every trick in the bag being pulled by both teams throughout the game. The Miners only counter came early in the second quarter. After taking the O. C. U. kickoff to the Miner 40-yard line, a lateral, Nickel to Pfeifer to MacGregor worked beautifully and Mac scampered across the Goldbug goal line behind some beautiful interference by the whole Miner team. The main thing that led to the Miners downfall was their inability to catch passes. Time after time they had receivers out in the open, but they couldn't hold the ball when it came in their arms. The Oklahoma Citians first two scores came in the first quarter, and the last two in the fourth. The brilliant running and passing of Newbury and Barton, Goldbug backs, combined with Miner fumbles and dropped passes caused the high score against the Miners.

MINERS 6—KIRKSVILLE 13

The Kirksville Bulldogs, lead by a powerful and hard hitting backfield, upset the Miners 13 to 6, in a seesaw game that was anyone's battle until the final whistle blew. The Miners score came in the closing minutes of the first half following the recovery of a fumbled punt on their own 42-yard line. Nickel and Keisler carried the ball to the 30-yard line, and then Nickel tossed a pass to Murphy who went over the double stripe. Stella failed to convert the try for extra point. The Miners did not open their pass attack until late in the game, and for the most relied on deceptive spinners and straight bucks into the line. Kirksville scored in the first and second quarters. A pass that fell into a Kirksville receiver's hands after being hit by a Miner back played the ball on the Miner seven yard line, and after four tries at the line the Teachers managed to put the ball across. Their second score came as a result of a series of short line plays after recovering a Miner fumble.

MINERS 0—CAPE GIRARDEAU 20

The final game of the 1936 season saw the Miners go down to defeat before the Cape Indians 20 to 0. The first quarter of the game was scoreless with the ball seesawing back and forth close to mid-field. Cape then shook her midget backs loose on two successive plays and worked the ball down to the Miner three yard line. Two tries at the line failed but a double lateral sucked the Miner ends in and resulted in the first score of the game. The final period saw the Indians push over two more scores. Both were the result of long passes and well executed end runs.

BASKETBALL

Jimmy has lettered four years in basketball. His playing has always been fast and somewhat glamorous, thus he picked up the nickname "Flash." His graduation will be a great loss to the Miner's team.

Miners vs. Springfield at Springfield
Miners vs. Warrensburg at Rolla
Miners vs. Kirksville at Rolla

The Miner basketball season for 1935-36 could be spoken of as fair by most fans, but to those who were on the inside and could judge for themselves, the season was highly successful.

Although the Silver and Gold won only four games during the season, they were competing in the fastest basketball loop in the middle west. Officials, sports writers and coaches were unanimous in saying that the Missouri Intercollegiate Athletic Association was stronger than any loop in the Mississippi River area, with only one team, that of Kansas University which won the Big Six flag having a higher rating.

First Row: Pfeifer, Clayton, McGregor, Lange, Ellis, Moreland.
Second Row: Kirchoff, Busch, R. Prange, Jenkins, H. Prange, Carroll.

BASKETBALL

The championship Cape Girardeau five, the tall Warrensburg quintet and the Maryville Bearcats all ranked higher than the Universities making up the Big Six and the Valley Conferences.

In face of such competition the Miners made a very good showing. Coach Elmer Kirchoff, in his second year as basketball mentor, took a squad that clearly showed lack of practice because of insufficient time, and steered them through a season of well fought games.

The Miners opened their season before the Christmas holidays by trimming Central Wesleyan 37 to 15 to repeat their victory of a year ago. Bob Lange and Herman Pfeifer shared scoring honors with eight points apiece.

On December 18 the Silver and Gold cagers invaded Cape Girardeau to play the ultimate champions in the first conference game of the season, and were set back 31 to 21. Bob Prange and Chick Moreland were high with five markers apiece.

Drury College called at Rolla after the holidays and walked off with a 34 to 29 victory. The layoff apparently affected the Miners a great deal, while the Panthers had been on a tour during the vacation and were in good shape.

In a return game a few days later at Springfield the Miners again lost to Drury. Incidentally Drury finally won the championship of the M. C. A. U. loop.

Three more games were dropped by the Miners on the local floor before they were able to break into the win column again. Springfield successfully spiked the Engineers scoring guns and had no trouble in going home with a 23 to 12 victory.

ELLIS McGREGOR PFEIFER LANGE R. PRANGE JENKINS MORELAND

Cape Girardeau then repeated their previous act and romped over the Rolla-men, 29 to 17 in a conference battle. Three nights later, on Saturday February 1, the St. Louis University cagers were able, with a last half rally, to nose out the Miners, 28 to 23.

Kirchoff's men turned in their best performance up to date and had a long lead on the visitors up until the last minute. However, a blizzard, a previous licking and only two days' rest, did not bother the Engineers and they came back with a bang to defeat St. Louis University 32 to 28 in a thrilling overtime game in St. Louis.

After leading all through the first half, the Miners slipped and allowed the Billikens to even the score up 28 all with but a few minutes to play. However, they successfully "froze" the ball and forced the game into overtime, during which Pfeifer and Clayton caged field goals to win the game.

Next on the program was a long road trip into Northern Missouri on which the Miners won over Kirksville, for their first conference victory, and then lost to Maryville at Maryville.

Back at Rolla again, the Maryville five again triumphed, this time 31 to 25. Pfeifer led the scorers with 11 points. The next road trip found the Rolla-men losing to Warrensburg but winning from Springfield. Both Warrensburg and Kirksville knocked over the Miners to end the long season.

The following seven men were awarded letters: Captain Jim McGregor, Charles Clayton, Paul Ellis, Bob Prange, Bob Lange, Herman Pfeifer and William Busch.

HOLLIDAY

INTRAMURAL

Basketball

An extremely interesting season of intramural basketball ended in a three way tie. The Sigma Nu's, Freshman Independents, and the Sophomore Independents all having won ten games and lost one. The next in line were the Sigma Pi boys who had won seven and lost four games.

The tie was played off leaving the Sophomore Independent team victorious. The scores of the playoff were 22-15 in favor of the Sophomores over the Freshmen and 28-19 in favor of the Sophomores over the Sigma Nu's.

This year an all star team was picked from the competing teams. The team is composed of Ballman and Holliday, forwards; Strait, center; and Stella and Daugherty as guards. Strait, who is a freshman, set a new high scoring record of 171 points or an average of 15.5 points per game. The record was formerly held by Sam Smith who last year scored 113 points.

FINAL STANDINGS

Team	Won	Lost	Avg.
Sigma Nu	10	1	.909
Freshman	10	1	.909
Sophomore	10	1	.909
Sigma Pi	7	4	.636
Juniors	7	4	.636
Triangles	6	5	.545
Alpha Lambda Tau	4	7	.363
Mercier	3	8	.272
Lambda Chi	3	8	.272
Seniors	2	9	.181
Pi Kappa Alpha	2	9	.181
Kappa Sigma	2	9	.181

Baseball

The season's intramural baseball was played in the form of two round robin tournaments. The winners of each tournament to play a three-game series to decide the championship. The first tournament was won by the Sigma Nu's team and the second by the Freshman Independent team. In the championship playoff the Freshman team won the first game by a score of three to one, the Sigma Nu's winning the remaining two games five to four and thirteen to nine giving them the championship.

FINAL STANDING—FIRST HALF

Team	Won	Lost	Pct.
Sigma Nu	5	0	1.000
Pi Kappa Alpha	4	1	.800
Freshman	2	3	.400
Seniors	2	3	.400
Sophomores	0	5	0.000
Juniors	0	5	0.000

FINAL STANDING—SECOND HALF

Team	Won	Lost	Pct.
Freshman	4	0	1.000
Pi Kappa Alpha	3	1	.750
Sigma Nu	2	2	.500
Seniors	0	4	0.000
Sophomores	0	4	0.000

TRACK

THE SCHEDULE

March 27—M. I. A. A. Indoor Meet at Columbia.
April 9—Westminster Dual Meet.
April 13—St. Louis University.
April 18—Kansas Relays.
April 22—Springfield Teachers Dual Meet.
April 27—Missouri U.-Warrensburg Teachers and Miners Triangular Meet.
May 2—Drury Dual Meet.
May 8—M. I. A. A. Conference Meet.

For the first time in a number of years the Miners engaged in indoor track, Coach Grant's speedsters participating in three meets on the boards. The first was the St. Louis Indoor Relays in which Bob Lange came within one-eighth of an inch of the M. I. A. A. outdoor record, which he holds, to win the high jump.

Second on the Miners' schedule was the revived M. I. A. A. indoor meet held at Columbia in the Brewer Field House of the University of Missouri. The Silver and Gold wound up in fifth place, mostly because of lack of workouts. Lange had an "off" night and finished second to Wayne Goddard of Cape Girardeau, who set a new record.

However, Buran Brown, popular red-headed distance ace, later to be elected Captain of the Miners, came through in the two-mile run, and was also able to eke out a second in the mile. Jim McGregor won the broad jump without much trouble, setting a new record at the same time. Altogether it was a night for records to fall, as all but the distance runs, were broken.

Cape Girardeau won the meet, to repeat their victory of the Spring before, when they won their first conference meet in all the years they have been in the M. I. A. A. loop.

A week later Coach Grant accompanied Lange, Brown, and a relay team to the St. Louis Invitational Relays, in which such stars as Cunningham, Osborne and Metcalfe competed. Lange was entered in a special Decathlon with Osborne, consisting of the standing high jump, the running broad jump, the standing broad jump, the running high jump and the hop, step, and jump.

In all these events the Miner ace did right well, although he had not practiced in these before. Osborne, however, was feeling "right" and set two new world records. In the running high jump, Lange and Osborne tied at the height, six feet two inches.

Outdoors for their first meet of the year, the Miners were upset by the Westminster team at Fulton, 71 to 65, when the Bluejays won both the relays, which were the last events and the deciding factor. McGregor was high point man for the Miners with firsts in the 100 and 220-yard dashes and a third in the broad jump.

The Silver and Gold annexed nine firsts out of the 16 events but could not score enough seconds and

TRACK

thirds to win. Coming back after but two days' rest, the Miners walloped St. Louis University on the local track, 78 to 57. Captain Brown collected 12 points and high point honors for the day by winning the two-mile, tieing with Tittle in the mile, and placing second in the halfmile. The Billikens were only able to score five firsts, most of them coming in the field events.

Away from home again, the trackster ran into plenty of trouble, and lost to the Springfield Teachers, 86½ to 46½, the Bears sweeping all but five events in the lopsided affair. Lange won the high jump, Brown the two-mile run, Youngbluth the high hurdles, Bishop the low hurdles, and Lange the broad jump.

A week later the Miners traveled to Columbia to engage in a triangular meet with the University of Missouri and Warrensburg Teachers College. Lange engaged in a jumping contest with Warren Kelly, Big Six title holder, and finally won out at six feet two inches, for the only Miner first in the meet.

The Mules did a little better, winning the pole vault and the high hurdles, and Missouri University won the affair without much trouble.

As this goes to press the Miners have two more meets, one with Drury College on the local field and the M. I. A. A. conference meet at Springfield under the floodlights. The Silver and Gold are topheavy favorites to take the Panthers, but will hardly fare so well in the conference get-together.

The veterans such as: Lange in the high jump; Brown in the two mile run; McGregor in the dashes and broad jump; Dorse Bishop in the hurdles; and Tittle in the mile, will probably put up a fine showing.

New men who have developed fast are: Youngbluth in the hurdles; Nickel in the half; Tuckett and Irwin in the relay; and Machens in the javelin.

The loss of several good men hurt the Miners more than anything. Joe Murphy, ace hurdler, hurt his leg early in the season and when reaching the time when he could run again would have the misfortune to hurt it again.

Jack Hall, a distance man Coach Grant was relying upon to place in the distance runs, went to the hospital with the flu and was out for the rest of the season. After the Westminster meet Ed Ballman, who had won the halfmile in all his races up till that time, became ill and was lost for the rest of the meets.

INTRAMURAL

Roger Mast, fast stepping freshman ace, set a record smashing pace in the Intramural Track and Field meet, winning four firsts and runing on the 3rd place relay team, but could not compete with the all-round Junior Independent squad, and so the Freshmen wound up in second place with 32.6 markers, while the third year men had 36.

The Sophomores were only two points behind the Freshmen with 30.5 markers, while the Sigma Nu's were a bad fourth with 19. All the other groups were badly outclassed, although there were only eight organizations in the meet.

SUMMARIES

50-Yard Dash—Won by Mast, Freshmen; Bohanecke, Juniors, Second; Decker, Sophomore, third; Gregg, Sigma Nu, fourth. Time—:5.75.

100-Yard Dash—Won by Mast, Freshman; Bohanecke, Juniors, second; Decker, Sophomores, third; Kiesler, Sophomores, fourth. Time—:10.5. (A new record.)

220-Yard Dash—Won by Mast, Freshman; Bohanecke, Juniors, second; W. G. Folsom, Sigma Nu's, third; Mooney, Freshman, fourth. Time—:23.5. (A new record.)

440-Yard Relay—Pi Kappa Alpha and Sigma Nu tied for first; Sophomores, third; Lambda Chi Alpha, fourth. Time—:50.3.

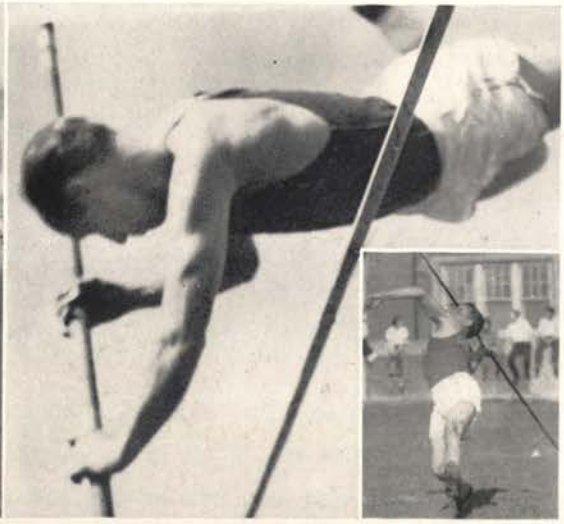
60-Yard High Hurdles—Won by Troutner, Freshman; Rasor, Kappa Sigs, second; Smith, Sophomores, third; Wilson, Sigma Pi, fourth. Time—:9.8.

120-Yard Low Hurdles—Won by Wilkey, Juniors; Bier, Sophomores, second; Troutner, Freshman, third; Wilson, Sigma Pi, fourth. Time—1:42.0.

Pole Vault—Ellis, Juniors and Hatten, Sigma Nu's tied for first; Wilkey, Juniors and Casteel, Sophomores, tied for third. Height—9 ft. 0 inches.

High Jump—Bier, and Caroll, Sophomores, tied for first; Graft, Juniors, third; Troutner, Freshman and Ellis, Junior, tied for fourth. Height—5 ft. 2 inches.

Shot Put—Won by Wilkey, Juniors; Barclay, Juniors, second; Daily, Kappa Sigma, third; Heslet, Lambda Chi Alpha, fourth. Distance—34 feet 10½ inches.



Discus Throw—Won by Holliday, Sigma Nu; Daily, Kappa Sigma, second; Heslet, Lambda Chi Alpha, third; Gerwin, Sophomores, fourth. Distance—110 ft. 9 inches. (A new meet record.)

Javeline Throw—Won by Holliday, Sigma Nu; Ellis, Juniors, second; Mooney, Freshmen, third; Johnson, Lambda Chi Alpha, fourth. Distance—125 ft., 3½ inches.

RESULTS

POINT TOTALS

Juniors	36.0
Freshmen	32.5

Wrestling

Wrestling was introduced as an intramural sport this year and judging from the size of the entry list and the number of people who turned out to watch the matches it will continue as one of the sports next year. The boys wrestled under the national intercollegiate rules governing such bouts.

The Sigma Nu's scored the greatest number of points in the meet by having three men as weight division champions and two men as runners up. Second and third place honors were divided by the Pi Kappa Alpha and the Sigma Pi teams.

126-Pound Class—Dorse Bishop pinned Robert Gregg in 2.21.

135-Pound Class—Howard Sherman pinned Fred Hoener in 21 seconds.

145-Pound Class—Harry Tushman won a decision from John Soult. Time advantage of 4.16.

155-Pound Class—George Dickinson and Jim Wilson wrestled through two overtime periods to a draw.

165-Pound Class—Joel Loveridge pinned Ed Simpson in 1 minute 57 seconds.

175-Pound Class—Tony Plummer won a decision from Ed Roy. Time advantage of 2.6.

Heavy-Weight Class—Bud Folsom pinned Herb Harris in 1.29.

Swimming

With the conclusion of the intramural swimming meet it was found that four new school records had been made. The first to be broken was the hundred yard back stroke. Jimmy Miller bettering his own last year's record swam the hundred yards in 1:19.4. Hatten, freshman Sigma Nu, in the second heat of the forty-yard free-style, bettered Bob Prange's record time of 22:35 but in the fourth heat Sherman, Pi K A freshman, beat Hatten's record by swimming the forty yards in 21:8. Sherman also bettered Fernandez's record time for the hundred-yard free-style, his time being 1:10.2. For the first time in several years diving was made part of the program and there were quite a few entries. The judges were unable to decide which of the two (Fernandez or Heslet), should be given first, so they called it a tie and divided the points between the two men.

RESULTS

160 Yard Relay—
Sigma Nu, 1:39.9.
Pi K A, 1:45.3.
Sophomores, 1:47.
Freshmen, 1:51.5.

100 Yard Breast Stroke—
Miller, Sigma Nu (record), 1:19.4.
Rodman, Lambda Chi, 1:26.5.
Ruemmler, Kappa Sigma, 1:36.5.

40 Yard Free-Style (qualifying times)—
Sherman, Pi K A (record), 21.8.
Hatton, Sigma Nu, 22.2.
Gregg, Sigma Nu, 23.8.
Prange, Senior, 22.7.

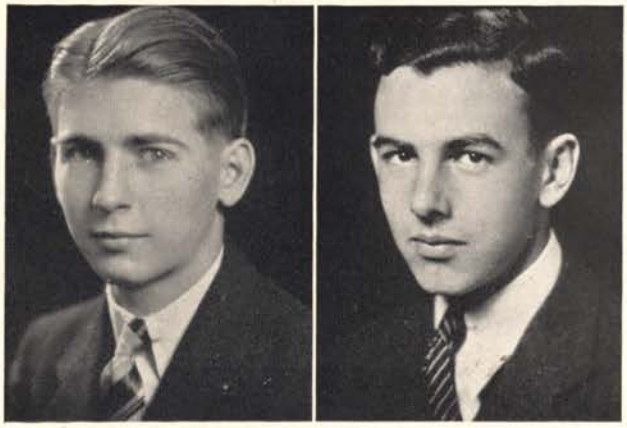
100 Yard Back Stroke—
Gleason, Mercier, 1:31.
Folsom, Sigma Nu, 1:32.8.
Gregg, Sigma Pi, 1:44.1.
Ruemmler, Kappa Sigma, 1:46.3.

100 Yard Free-Style—
Sherman, Pi K A (record), 1:10.2.
Fernandez, Triangle, 1:12.8.
Ward, Sigma Nu, 1:20.7.
Lanier, Sophomore, 1:25.

Medley Relay
Sigma Nu (record), 1:20.1.
Triangle, 1:29.4.
Kappa Sigma, 1:32.9.
Lambda Chi, 1:37.9.

Fancy Diving
Heslet, Lambda Chi—Tie.
Fernandez, Triangle—Tie.
Pearl, Freshman.
Folsom, Sigma Nu.

ATHLETIC ASSOCIATION



Hoener Wright

The chief purposes of the Athletic Association at the School of Mines are the taking care of all athletic equipment and the performing of any work connected with the athletic department. This service is also extended to visiting athletic teams from other schools. The policies of the Association are regulated by a Board of Control consisting of Coach Grant, Prof. C. Y. Clayton, and Mr. Kahlbaum, business manager of the school. The Athletic Association plays a very important part in the field of sports at M. S. M. and the present organization is to be highly commended for the efficiency of its work in the past season.

Phi Kappa Phi

Phi Kappa Phi is an honor society composed of professors, graduates, and undergraduates elected from all departments of universities or colleges where a chapter is located. The society emphasizes scholarship, character and service, and those elected must be distinguished by those qualities.

The Missouri Mines chapter was founded in 1920, and it has grown rapidly ever since. During the first several years of its existence, the local chapter elected only the seven leading men in each graduating class. Since 1930 the membership requirements have been revised and now 15 per cent of each graduating class, 12 per cent to be elected in the fall, and the remaining 3 per cent in the spring, is eligible for Phi Kappa Phi membership. It is the custom to require undergraduates to have an "S" average for three years work to be eligible for membership.

Last year this chapter initiated a new idea, that of awarding Phi Kappa Phi book plates to the upper 15 per cent of each class each year. There were thirty-two plates awarded last year and thirty-three this year.

This year a series of lectures was held on, "The Correlation of Knowledge." These lectures were given by faculty and student members. At the fall initiation the following men became members: Eugene Daily, Edward Fiss, Johns Hubbard, H. F. Michel, W. H. Schwalbert, E. L. Smith, Ralph H. Striker, A. E. Woerheide, and Prof. Paul Howard.

Theta Tau

Theta Tau, a fraternity composed of engineers, was founded at the University of Minnesota, October 15, 1904. The Iota Chapter of Theta Tau had its inception at the Missouri School of Mines, February 5, 1916. Theta Tau does not maintain a house on the campus, its members being selected on a scholastic basis.

Prominent Theta Tau alumni on the M. S. M. Campus are Dr. C. H. Fulton, Dr. C. V. Mann, Dr. S. R. B. Cooke, Dr. H. A. Buehler, F. D. De Vaney, H. C. Bolon, and E. L. Stout

Epsilon Pi Omicron

Epsilon Pi Omicron, a professional Chemical Fraternity, was founded in December, 1932, on the Missouri School of Mines campus. Its purpose is three fold; to strive for the advancement of Chemistry, both as a science and a profession; to foster a spirit of good fellowship among the students of Chemistry; and, to instill the spirit of research.

Members are selected on a basis of personality and general adaptability from students majoring in Chemistry and who have a scholastic average substantially above "*M*".

Blue Key

Blue Key is a national honorary non-social fraternity. The nucleus of the present organization was taken from the old local Satyr Society, and the local chapter of Blue Key was installed in 1931.

The cardinal principle of Blue Key is Service. This is carried out by the promotion of objects of general welfare for the school; printing of sports programs, compiling of student directories, and similar services which make for the betterment of the school.

Alpha Psi Omega

The Delta Pi cast of the Alpha Psi Omega, national dramatic fraternity, was inaugurated on the Missouri School of Mines campus in the fall of 1933. The Alpha Psi Omega was organized from the old 'Players," a dramatic society which was started in 1923.

The "Silent Shape," which was Alpha Psi Omega's first production was presented October 26, 1934. Following this were many more successful plays such as "Thru the Keyhole," and the latest one, "The Tightwad," given December 18, 1935. The productions of the Alpha Psi Omega have become very popular as shown by the enthusiasm with which their plays are received.

Membership in Alpha Psi Omega is open to Missouri School of Mines students and faculty, and to young ladies in Rolla who may be interested. Meetings are held regularly and banquets are frequent. To become a member, one must take a major part in a production, or two minor parts, or he may work as a stage hand or become efficient in the business or management part of productions.

The charter members were H. D. Dallmeyer, J. S. Cullison, J. D. Morton, Emily McCaw, Margaret Mann, Mary Lee Johnson, C. W. Kruse, R. W. Dobson, J. E. Bird.

The Old "Players" formerly gave a play each year as part of the St. Pat's celebration. For five years this custom has been discontinued, but this year the Alpha Psi Omega fraternity gave a play, March 13, entitled, "Some Body."

Orton Society

The Orton Society is the local student branch of the American Ceramic Society. It was founded by the students and faculty of the Ceramic Department in 1927, in honor of General E. Orton, Jr., founder of Ceramics in the United States.

The function of the society is to create closer bond on the campus between the ceramic students of M. S. M. to discuss recent developments in the field of ceramics. This society is purely a student organization with the ceramic faculty as advisory council.

The Orton Society aims to bring to the student body in the coming year motion pictures of the Ceramic Industry and speakers on Ceramic subjects.

Ira Remsen Society

Ira Remsen Chemical Society was founded upon the campus of Missouri School of Mines and Metallurgy on October 11, 1923. The organization was started with the purpose of extending the practical knowledge of chemistry to the students of the school by having leaders in the profession give talks in their particular fields. This organization has met with much success in the years of its activities in this respect. The society is open to all who are interested in the field of chemistry regardless of race, creed, or chosen profession. Meetings are held twice a month. Whenever an outside speaker cannot be had, a senior of the school gives a talk on his summer work, in his chosen field which offers a very fine opportunity for the out-going man to acquaint himself with the proper preparation and delivery of a technical talk. This organization is a decided asset upon the campus.

Missouri Mining and Metallurgical Association

The objects of the Mining and Metallurgical Association are to advance the knowledge of mining among its members, to promote good fellowship among the students and alumni of the School of Mines and others interested in mining and to bring the school into closer relation with the mining profession at large. With this purpose in mind, the Association holds technical meetings at which time well known engineers address the group, bringing the latest developments in the field direct to the students.

The Association is affiliated with the American Institute of Mining and Metallurgical Engineers, and any member may become a junior member of the Institute.

American Society of Civil Engineers

The American Society of Civil Engineers was organized on the M. S. M. Campus in November, 1923, by the Junior and Senior engineering students with the aid of Professor Butler. In later years the membership was extended to Freshmen and Sophomore engineering students. The society is now composed of 100 per cent of the Civil Engineering students together with the faculty of the department of Civil Engineering. This society has for its objects the advancement of engineering education among its members and the promotion of the mutual interests. The society brings speakers of proven ability before its meetings, thus connecting theory with practice through the experience of others.

The American Institute Of Electrical Engineers

The American Institute of Electrical Engineers was founded in April, 1884, by Mr. R. S. Keith, who was an Electrical Engineer in New York City. He organized this society to promote "the advancement of the theory and practice of electrical engineering, and of the allied sciences." From the organization's humble beginning in New York, having a membership composed of a few local engineers, the organization has grown until it now has 19,000 members.

The organization grew so rapidly, and so much interest was shown in it by the students of the various engineering schools of the United States, that it was decided to permit students of electrical engineering at the important technical schools to become members in student chapters of the society.

Requirements for membership in the student chapters are that the members be students in good standing registered in the electrical engineering curriculum.

The student chapter at M. S. M. was approved by the society in March, 1925. Since that time the local chapter has been active in the promotion of activities on the campus. Membership in the local chapter is limited to Sophomores, Juniors and Seniors in the E. E. curriculum.

Business Manager

The Rollamo Board has as its sole purpose the composing and publishing of the Rollamo, not only for the students, but for the alumni, and anyone who is interested in a history of the school year, that is in a printed form so that it can be preserved for future years.

Election to the board is possible only for those who have done their work to the entire satisfaction of the board. Tryouts are usually taken from the sophomore class. This is due to the fact that much of the work to be done requires a working knowledge of the campus, and a freshman can hardly be expected to have this, hence it is impossible for him to do the work satisfactorily.

The board elects the Editor and Business Manager for the succeeding year, and they in turn appoint the other officers to the respective positions.

It is the constant aim of the Rollamo Board to give to the student body an annual that will represent a true cross-section of the school activities for that year. There are only two methods of doing this, and they are by the use of pictures or printed material. In the 1936 Rollamo we have tried to combine these two methods in order that there might be a happy medium between them, and in this manner develop a balanced book.

We hope that you will enjoy this, the 1936 Rollamo, as much today as you will in the years to come.

MISSOURI MINER

The Missouri Miner is a weekly newspaper published by the student body. This paper prints the news and editorials of general interest, and brings before the student's eye the various activities on the M. S. M. Campus. Its chief purpose is to promote goodwill among the students and the many organizations on the campus.

The officers on the Miner Board are competent and possess the ability so essential to an organization of this kind. New board members are elected in the spring of the year by the active members.

First Row (left to right): Steinmetz, Alexander, Houseknecht, Compton, Howerton, Peters, Tittle, Lange, Holman, Bliss, Menefee.

Second Row: Folsom, Vincent, McCurdy, Jarrett, Silver, Simpson, Schnider, Prough, Radcliffe, Rasor, Ruemmler

OFFICER

Captain Emerson C. Itschner, Corps of Engineers, U.S.A., was graduated from West Point in 1924. After further training at Fort Humphreys and Cornell University, he was assigned to duty in Alaska and Fort Lawton, Washington, before coming to M. S. M. in September, 1932.

R. O. T. C.

In the preamble to the Constitution of the United States we find basis of our policy of national defense. "To form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty," it is necessary that we maintain an army and navy. To meet this need we have our standing army and navy to act in event of war.

At the close of the World War it was apparent that the regular army was unable to furnish enough officers in time of war. To remedy this situation the National Defense Act of 1920 was passed which provided for our present Reserve Officers Training Corps, commonly known as the R. O. T. C. This is a corps of young men in our schools and colleges, undergoing military training to fit them to fill positions as officers and non-commissioned officers in the organized reserves.

The advanced course in R. O. T. C. requires an average of at least five hours per week and in addition at least one camp of not more than six weeks duration. Each advanced corp student is given remuneration for time spent in drilling and at camp.

The R. O. T. C. unit at this institution was established in March, 1919. At the end of its first school year it had an enrollment of 104 students with three in the advanced course. At present the unit consists of approximately 210 men and 35 men in the advanced course. Upon completion of the advanced course these men will be commissioned in the Officers Reserve Corps.

The highest honor that can be received in the advanced course is to be appointed Cadet Major of the Battalion. Through the Director and with the consent of the Board of Curators, the student receiving this appointment is made exempt from all fees and deposits required during the Senior year. The scholarship was won this year by Arthur Woerheide.

Advanced Corps

Captain Walter Hodge, Corps of Engineers, U.S.A., was graduated from the U. S. Military Academy in 1925. After serving on the Mexican border, he attended Cornell University and Fort Humphreys Training School. Upon completion of tours of duty in Alaska and Fort McIntosh, he was assigned to the School of Mines in September, 1934.

Sergeant William B. Bertram, D.E.M.L., Corps of Engineers, U.S.A., was graduated from the University of Virginia with the degree of LL.B. After receiving a similar degree from Cumberland University, he practiced law until the United States entered the war, when he served overseas with the Quartermasters Corps. He re-enlisted in 1924, serving with the second Engineers until assignment to the School of Mines as Instructor in January, 1929.

R. O. T. C. Band

The "Miners Band" of twenty-five members was organized in September, 1926, with the following officers: Ed. Hunze, President; J. Maples Wilson, Secretary-Treasurer, and John W. Scott, Director. Two years later this band was reorganized by the M. S. M. R. O. T. C., and became a part of the military unit. At this time H. C. Harkes was Drum Major, and John W. Scott, Musical Director.

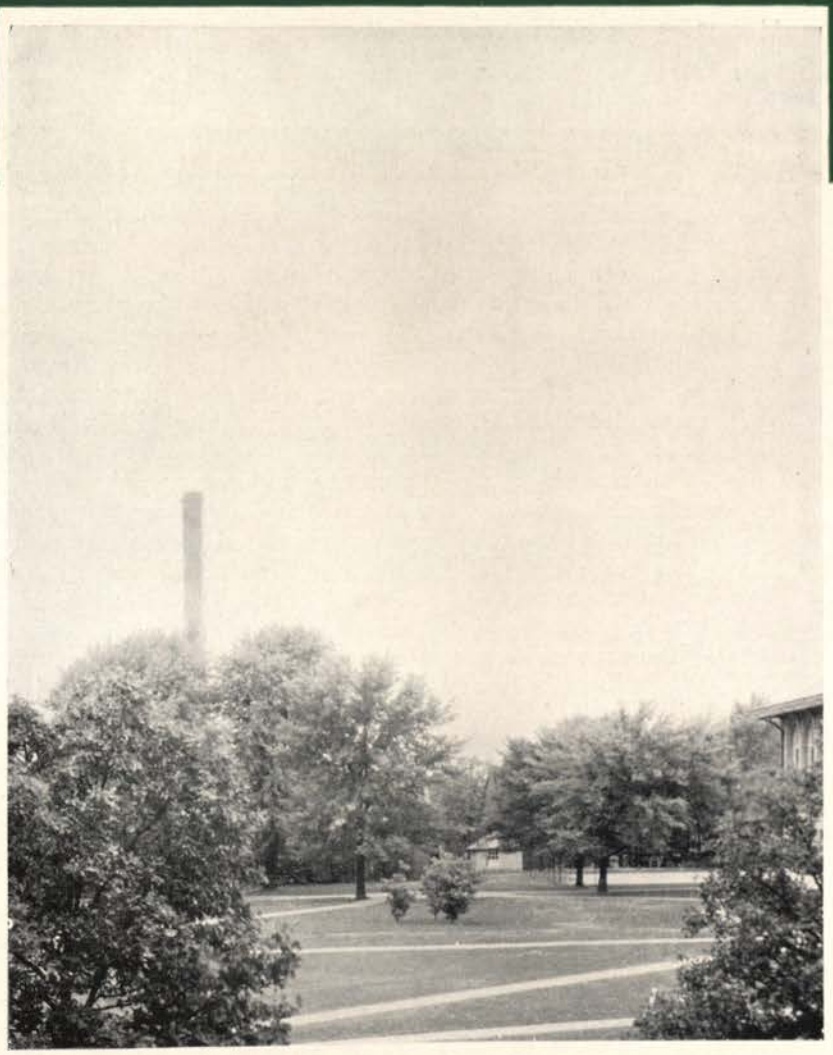
Since that time, the band has successfully served the school and the military department. It is recognized as the most outstanding organization on the campus, and its ranks have been filled each year by many talented musicians.

The purpose of the R. O. T. C. Band is to furnish music for the R. O. T. C. unit during military drill, and parades. It must also furnish music for athletic games and any other events connected with the school.

The Military Ball

One of the most brilliant social events of the year was the annual Military Ball given by the members of the Advanced Engineers Corps at Jackling Gymnasium, on January 18. The gym was properly decorated, and beautifully arranged for such an event. From high in the center of the gym red, white and blue streamers were carried down to the sides, forming a canopy. At the far end of the gym was the platform arranged for the presentation of the Queen. The platform was flanked by stacked arms with a machine gun as a centerpiece. Above the platform was the M. S. M. flag, and at each side hung an American flag. At the opposite end of the gym was a very attractive arrangement for the orchestra. Above the orchestra platform hung a huge American flag. With the above decorations, and with the formality of black and white of the crowd, the gymnasium presented a beautiful setting.

The presentation of the Queen began at 11:30 p. m. as the members of the Advanced Corps and their dates marched in to form an aisle leading to the throne. As the trumpets sounded the Battalion Maid of Honor, Miss Lois Ottenad, entered and was escorted to the throne by Cadet Captain and Supply Officer J. R. Hubbard. The next to enter was Miss Frances Wommack, Staff Maid of Honor, accompanied by Cadet Captain and Adjutant K. O. Hanson. Following in order were the Maids of Honor of the three companies: Miss Helen Dake, accompanied by R. H. Striker, Cadet Captain of A Company; Miss Virginia Platt, accompanied by D. F. McCarron, Cadet Captain of B Company; and Miss Ethel Watkins, accompanied by J. R. Clanton, Cadet Captain of C Company. Then as the trumpets sounded again, the Queen of the Military Ball, Miss Nina Hendrickson, entered and was accompanied to the throne by A. E. Woerheide, Cadet Major. As the Queen passed down the aisle of officers an arch of sabers was formed, and upon reaching the platform the officers saluted, and she was presented with a bouquet by Major Woerheide honoring her as the Queen of the Military Ball.



SOCIAL FRATERNITIES

ALPHA LAMBDA TAU

Alpha Lambda Tau was founded by a group of men who first organized as the Alpha Lambda Club, the first fraternal organization at Oglethorpe University. It was decided that the organization should become a national order, consequently the fraternity was incorporated under the laws of the State of Georgia; the name being registered as Alpha Lambda Tau. There was an idea that gained widespread publicity throughout the organization that the fraternity would never go north of the Mason-Dixon Line, but this was brought to the floor of the convention of 1927 at which time it was disapproved and the move led to the chartering of the University of Illinois chapter, the first Northern branch.

The fraternity at the present time has twenty active chapters, no inactive chapters, and three alumni chapters. A quarterly, the *Rose Leaf*, is published as the exoteric publication, and the *Alt*, esoteric magazine, is printed every month.

The badge is of gold, having four arms in which are mounded the letters A L O T, while the center is round, upon which is a black enamel shield containing the following figures in gold: a serpent, and a cross in the middle with two torches on the side, above are three stars and a fourth at the bottom.

Alpha Lambda Tau was founded on the M. S. M. campus in March of 1935, although it did not really become an active chapter until September of that year.

KAPPA SIGMA

The M. S. M. chapter of the national social fraternity Kappa Sigma was the second fraternity to be established on the campus, Sigma Nu having obtained its charter but a few months earlier. Ten members were initiated and the chapter was formally installed by representatives of four other chapters on December 19, 1903. In 1927 the fraternity bought the house which it now occupies. At present there are sixteen active members and three pledges. The fraternity is well represented on teams and other campus activities.

The national fraternity of Kappa Sigma was founded at the University of Virginia in 1860 by five very close friends who, although not excluded from the several fraternities then existent at the University of Virginia, decided to establish a new fraternity themselves. These five, William G. McCormick, George M. Arnold, Edmund L. Rogers, Jr., John C. Boyd and Frank C. Nicodemus, are known in the traditions of the fraternity as the "five friends and brothers." The original constitution drawn up by these five gives the name of the brotherhood and the design of the badge. This badge, originated by Rogers, has never been changed. The leader of the original founders, William G. McCormick, is still living. The fraternity grew with the colleges until it now numbers a hundred and eight chapters, of which Beta Chi is not the least.

LAMBDA CHI ALPHA

The first meeting of Lambda Chi Alpha was held November 2, 1909. The fraternity grew out of the Cosmopolitan Law Club that was organized in 1905.

Alpha Delta Zeta of Lambda Chi Alpha owes its origin to a group of Missouri School of Mines students who organized the Muckers Club in September of 1913. After four years of existence as a local club, the Muckers Club was initiated into the national fraternity of Lambda Chi Alpha.

The pioneer spirit that encouraged the Muckers to become affiliated with Lambda Chi Alpha continued through these many years until it is now a tradition of the chapter.

Social and athletic activities have drawn their full quota of men from the ranks of the chapter. Many honor societies and campus organizations find the names of men of this chapter on their rolls.

Lambda Chi Alpha, with its thirteen members and six pledges, bids well to continue to hold its name among the foremost of the fraternities on the Missouri School of Mines campus.

M E R C I E R

The Mercier Fraternity, whose corporation title is the Order of Cardinal Mercier, may trace its origin, at least in embryo, to a meeting of the Catholic students of the Missouri School of Mines in April, 1925. Father S. P. Stocking, the local pastor, proposed the idea and promised to assist in financing it if a sufficient number of independent Catholic students could be found to make it practical.

The fraternity was formally organized on September 12, 1925, with seven charter members and eleven pledges. The charter members were: Bennet R. Thompson '26, Bernard A. Costello '26, John E. Weber '27, Ameda V. Peugnet '27, Roy J. Gunther '27, Paul A. Hallasey '28, and J. Hugh Tobin '28. A constitution was drawn up by the members of the organization, and the approval of the faculty and of the Senior Council of the Missouri School of Mines was secured in the fall of that year. In December of the same year the fraternity was incorporated under the laws of Missouri as an educational, religious, fraternal, and charitable organization.

In January, 1926, the first pledges were initiated and the purchase of a home was considered. After looking over the available properties in town, the members purchased the beautiful and spacious home and grounds which the fraternity now occupies.

The fraternity chose for its patron, His Eminence, Desire Cardinal Mercier, Archbishop of Malines and Primate of Belgium, because of his patriotism in defense of his country during the World War. He seemed the highest ideal for Catholic students to whom membership in the Mercier Fraternity is limited.

The list of honorary members of the Mercier Fraternity includes Mr. Luke E. Hart, St. Louis; Mr. J. Walsh, St. Louis; Mr. R. P. Cummins, Jefferson City; Father C. B. Faris, St. Louis, and Father J. B. Little, Sullivan, Mo.

PI KAPPA ALPHA

The Pi Kappa Alpha fraternity was founded at the University of Virginia on March 1, 1868, by a group of young Civil War veterans headed by Frederick Southgate Taylor. The idea of forming this fraternity was first brought to mind after the battle of New Market, in which, as cadets of V. M. I., this group took an important part. However, their ideal was not realized until some years later at the University of Virginia.

Although the chaotic conditions in the colleges of the South following the Civil War made the early life of Pi Kappa Alpha difficult, other chapters were soon established throughout the South. The 1919 convention at New Orleans lifted the ban on the northern states, and Pi Kappa Alpha has since founded many chapters on northern campuses.

The Alpha Kappa Chapter of Pi Kappa Alpha was established on the Missouri School of Mines campus on December 2, 1905. At this installation seven men were initiated. This new Chapter was met with a spirit of antagonism by the other fraternities, because it was thought that this campus could not support any more fraternities. This spirit was soon lost, and harmony has reigned ever since.

Outstanding graduates of the Alpha Kappa chapter are: E. K. Needles, noted bridge engineer; R. G. Knickerbocker, a well known metallurgist; D. H. Radcliffe, a wealthy oil-well operator; Ira L. Wright, a prominent mining engineer, and H. T. Mann, professor at M. I. T. Members of the fraternity on the School of Mines faculty are W. C. Zeuch and M. D. Orten.

SIGMA NU

The Gamma Xi Chapter of Sigma Nu was the first fraternity established on the Missouri School of Mines Campus. This was thirty-three years ago when twelve men started the fraternity movement on the campus. These men met with much opposition from the student body and, as a result, were forced to give up their positions in student activities on the campus. This did not weaken the spirit of these men, and they made this sacrifice so as to establish the Sigma Nu Fraternity here.

Such was the spirit with which this fraternity was founded, back in 1869, at the Virginia Military Academy by James F. Hopkins, Greenfield Quarles and James M. Riley.

Down through the years the Sigma Nu Fraternity has grown to be one of the largest in the country. There are ninety-six chapters in forty-six states. The total living membership exceeds thirty-two thousand.

SIGMA PI

The Sigma Pi Fraternity was founded at Vincennes University in 1897. The Sigma Pi Chapter at the Missouri School of Mines was installed April 29, 1933. This chapter was formerly the Prospector Club.

The Prospector Club was founded and organized in 1913 by sixteen upperclassmen of the Missouri School of Mines. These men were not affiliated with any other social fraternity. One of the main features of this club was stated briefly in their original constitution: "To foster good fellowship among its members, and frankly strive to promote the interest of the members and of the Missouri School of Mines." The arrangements were ended in January, 1914, and the Prospector Club was then recognized by the School of Mines.

At the offset of the World War, practically the entire membership of the Prospector Club enlisted. A few active members kept the club going, until in 1919 the club was successfully reorganized. In 1922 the club was incorporated under the Fraternity Laws of the State of Missouri. The Alpha Iota Chapter of Sigma Pi was installed in 1933.

The Sigma Pi Fraternity was first known as Tau Phi Delta, but was changed in 1907 by the eight active members of the Alpha chapter at Vincenness University. Because of the decreased attendance at Vincennes University, the Alpha chapter of Sigma Pi became inactive at the end of the school year.

The more aggressive members, that were left, devoted their time to getting national recognition. The mother chapter was never reestablished because of the unpromising surroundings.

TRIANGLE

Triangle is a fraternity of engineers whose men have a brotherly interest in each other and are devoted to high professional and personal attainment in the field of engineering. It is a national collegiate fraternity which affords its members the advantages of fraternal life while in school and perpetuates that spirit of brotherhood through later years by virtue of a common interest, the field of Engineering.

The local chapter is governed by an elected group of men taken from its active membership. This practice gives the young Triangle man an opportunity to gain experience in directing and managing an organization of men, thus helping to develop his executive ability while still an undergraduate.

The fraternity has a national administrative group of alumni, who keep in close touch with all chapters and help them in an advisory capacity. Each chapter also has a group of honorary members upon whom they can depend to give them advice upon their more difficult problems. The honorary members of the Missouri Mines Chapter are: Professor Carlton of the Civil Engineering Department, Professor Walsh of the Metallurgy Department, and Professor Dodd of the Ceramics Department.

Triangle was founded at the University of Illinois on April 15, 1907, by a group of six civil engineering students. There are now fifteen chapters, located at the following universities: Illinois, Purdue, Ohio State, Wisconsin, Kentucky, Cincinnati, Iowa, Minnesota, Armour Institute of Technology, Michigan, Kansas, Missouri School of Mines, Pennsylvania State College, South Dakota School of Mines, and Northwestern. These schools are representative among the outstanding engineering institutions of the United States.

Triangle Fraternity has grown out of the small nucleus of junior civil engineering students who found that they had sufficient interests in common to form a club and live together during their senior year at Illinois University. There are now over two thousand Triangle men who have received their engineering degrees, most of whom are now following the engineering profession.

The organization was originally the Grubstakers Club, one of the older local clubs, founded September 15, 1902. It was installed as the Missouri Mines Chapter of Triangle on December 10, 1927. It is the only professional fraternity on the campus that maintains a chapter house, and in addition offers all the advantages of a social fraternity.

Interfraternity Council

The Interfraternity Council was organized on the campus of the School of Mines and Metallurgy for the purpose of binding the social fraternities of the campus into a closer union than had heretofore been present. The general idea was at once accepted by the fraternities, and the organization grew with the years until it reached the position that it holds on this campus today.

At present the membership consists of representatives from the eight active social fraternities on the campus. Alpha Lambda Tau is the newest organization to have a representative in the council, due to the fact that they have just recently been granted a charter to function as a social organization on the School of Mines Campus. As has been the custom in past years, one man from each fraternity is elected by that organization to represent them in the council, and act in the capacity of advisors. The term served by these men is one year, and in that year they voice the feelings of their fraternity in any matters that arise.

In general, the aims and duties of the Interfraternity Council consist of promoting better feeling among the fraternities, and to be helpful at any time, such as rush week, all social and athletic functions, and any other occasions that might arise. The annual Interfraternity Ball is the highlight of the social season for this organization, and is usually one of the most brilliant affairs of the year.

Scene of the Coronation

The Twenty-first Visit of St. Pat

The twenty-first St. Pat's celebration at the Missouri School of Mines and Metallurgy, is no doubt the gayest and largest one known, and will be long remembered by the happy throng that attended. The three day celebration brought to the M. S. M. Campus and various Fraternities many beautiful girls to help celebrate the glorious occasion.

Festivities started officially Thursday night with two dances starting at 10 o'clock. The Pi. K. A., Mercier, and Kappa Sigma Fraternities entertained with an open dance at the Pierce Pennant Tavern, while the Independents gave their dance at the Jackling Gym. After the Independent dance, the following fraternities, Sigma Nu, Sigma Pi, Lambda Chi, Triangles, and Alpha Lambda Tau, took over the gym and held open dances lasting until five o'clock Friday morning.

Friday morning found everyone at the Frisco depot awaiting the arrival of that jovial character, St. Pat. Upon his arrival, on a miniature flat car pushed by his imposing guardsmen, he was greeted by the cheering throng. Accompanied by a parade, composed of elephants, horses, various old cars, and many students, St. Pat bowed his way through the town and finally ended up at Parker Hall where he delivered his address, and with a few timely remarks knighted the seniors into the Royal Order of "Erin Go Braugh."

On Friday afternoon the dramatic club, Alpha Psi Omega, in a revival of an old custom, presented an excellent three-act play, "Some Baby," at the Auditorium in Parker Hall.

At 10 o'clock Friday night the merry throng of dancers made their way to the Jackling Gym to attend the costume ball. Here Joe Sanders and his Nighthawks were sending syncopated tunes throughout the beautifully decorated gym. The colorful and varied costumes of the merry makers represented people from the four corners of the world.

At the stroke of twelve, preceded by his strong and trusted guards who cleared a path through the jubilant throng, St. Pat entered his court to the strains of "Wearing of the Green." Following St. Pat came the retiring queen, Miss Dorothy Fort, wearing the crown she had so graciously worn during her reign. Following the retiring queen came the charming maids of honor who made up St. Pat's court, Miss Mary Ann Miller, Miss Frances Wommack, Miss Anne More, Mrs. Joe E. Peters, Miss Norma Baumgartner, Miss Elizabeth Stimson, Miss Isabel Bardsley, Miss Jeanne Devaney, Miss Eleanor Allen, and Miss Laura Brock, accompanied by their respective escorts.

Preceded by little flower girls came the new queen, the beautiful and charming Miss Jean Campbell. When she reached the foot of the throne she was crowned Queen of Love and Beauty by His Majesty St. Pat. St. Pat then escorted his new queen from the throne and the festivities were under way again.

Saturday afternoon the Sigma Nu Fraternity entertained with a tea dance at their chapter house from 2:30 until 6:00 o'clock. Saturday night at 10:00 o'clock came the formal closing dance of the celebration, which was preceded by formal dinners given by the various fraternities at their respective chapter houses. The crowd seemed to be in a happy mood, even though it meant that St. Pat's was almost over. At the strains of "Home Sweet Home," the dancers began to disappear from the scene leaving the soft music in the distance, hoping to return to His Majesty's court again next year.

St. Pat's Board

HANSON, COMPTON, FOLSOM.
PETERS, SIMMONS, HOLZ.
PRICE, VINCENT, NATIONS.
REESE, SCHAUMBURG, ARNOLD.
MCLAUGHLIN, SILVER, RASOR.
FISHER, GRIMM, SHEPPARD, JENKINS.

The St. Pat's Board was established on the School of Mines campus in 1930 to govern the arrangements for the biggest social event on the M. S. M. calendar.

The Board is composed of twenty men, two from each fraternity and two from the Independents, thus providing for a ruling body representative of every social organization on the campus. They, as the board, have charge of all matters pertaining to the annual event known as St. Pat's. During the past six years, this organization has accredited itself as one of the most efficient and well managed organizations on the campus.

Steady "Pat," here comes Hubbard.
Leading St. Pat to his limousine of honor (Man——Spreader).
Side view of St. Pat's special car through the courtesy of Frisco Railroad.
Ye old Ed and bodyguard Prough landing at Liberty, Missouri, with copy for this year's ROLLAMO.
What's the matter Appleyard, don't the seniors like that beard.
Jug "Hindu" Rasor and his boys prepare for St. Pat's parade.
You had better take it easy boys, the barbers will begin to "gripe."
St. Pat's delegation forming just prior to the issuance of 1A probation.
Views of St. Pat's parade.
The air-minded Miners.

The Alpha Psi's in action (Take it easy Dallmeyer).

Dave gives a little advice.

Junior "Mets" hard at work.

The "Murphys" and their "skirts" at St. Pat's (What are you doing in there Compton? Did you have a date with one of the "Murphy" gang?)

The group at the Triangle House, but where is "Pop" Fager?

You can't fool us McCarron.

The "Mighty Atom" cracks a smile—and a book.

Snake dance across the campus.

After the battle.

Body by Fischer—Paint by Duco.

What, no "Gobboon"?

Line forms on the right—paddles ready.

Busch and Prange brewing a batch of trouble for the freshmen.

'39-'38, Ah what the "Hell."

"Ouch," my neck.

Who said they didn't have mud in Kansas—Hanson knows.

The R. O. T. C. boys catching HELL at daily inspection.

All together and not too loud, "Some S———."

Soup's On.

Laboring with the Pontoon Bridge.

A view of Camp Whitside (R. O. T. C. Camp), Ft. Riley in background.

Ye Old Ed hard at work (Goldbricking).

Our Boys with their Generals (some firing squad, ah what).

Acknowledgments

We, the 1936 Rollamo Board, extend our most sincere thanks and appreciation to Mr. Owen Marsh and Mr. Bruce Cowan of the Pontiac Engraving Company, Mr. Harvey Ray of The William Jewell Press and to Mr. Cyril Swatek of the Becktold Company for the valuable suggestions and the wonderful assistance they have given us in publishing this book.

In spite of the fact that "Pender-gas" Nations thought that he was controlling the politics on this campus a few of the other fraternities were lucky enough to receive offices in this year's election. There was a rumor on the campus that P. K. A.'s were known everywhere as gentlemen who could drink all comers under Fred Smith's bar. Too bad "Fly-trap" Lange and Holman could not back up this rumor.

There have been several romantic achievements by the Folsom House this year. Peters and Peebles openly admit their defeat, but Folsom Senior still denies his. We often wonder what causes the Serpent to carry on.

"The House of a Thousand Values"

The K. S.'s were founded by a group of tea hounds at the University of Virginia immediately after the Civil War, when all of the South felt despondent. Many Southerners committed suicide. Others disdained the easier course and pledged K. S. The queer looking thing on the crescent of their pin is a skull and not a portrait of "Jug" Rasor.

Little has been heard from A. L. T. this year. Probably still less will be heard from them next year after the great Jenkins receives his degree. With a little coaching from Jenkins the Gigolo, Sheppard, should be able to take his place. We will give them credit for having two real he-men over there—"Pinky" Stewart and "Flash" Daugherty.

SINCE 19 twenty-three. Thirteen years!

The William Jewell Press has been printing annuals for colleges and high schools and during these thirteen years has not had a dissatisfied staff. Each year these annuals are entered in national contests and each book ranks high in its class.

The Press is able to do this because of minute attention given to the printing of these books. A trip through the plant will convince you of this.

We wish to thank the staff of this annual for its co-operation. It is through cooperation that this plant is able to print the type of annual of which you will be proud.

The Press has extended its service to the staffs of year books with a complete photographic and photo-engraving plant.

The Mercier House has four walls, surrounding three couches, two famous love-seats, and one lamp. Mercier, dear reader, is a fraternity, not a sorority, even though twelve girls and eight men were seen to pass through the front door in one hour. The fraternity would be a lot better off with a few less Tigers and a few more *football players.* Eh, Pete?

This fraternity is composed of most anything (athletes, lovers, politicians, or students). The only trouble is that they are only amateurs. "Don Juan" Eggleston is taking a leading part in upholding the romantic traditions of the house. Even secrets about marriage will leak out——? Price, "the personality horseman," reached the height of his glory during St. Pat's when his circus pony went into his waltz on the main drag. Was it love that Price picked up at the Pennant during St. Pat's? Ask Snyder!

"Honey-boy" Hanson and "Compton Sez" Compton have made a noble effort this year in trying to reorganize their fraternity. Was Hanson looking for a house for the K. A.'s or——? Since "Honey-boy" is editor of this issue of the Rollamo we'd better lay off the K. A.'s.
